

CERTIFICATE

Saint-Gobain Byggevarer AS congratulates and confirms that

Ernst Naujoks GmbH

as Accredited Weber Marine Floor Contractor (AWMFC) has completed the required training and are authorized for application of Weber Marine Floors. For certification, both theoretical and practical specialist training is required in products, systems and concepts. For the end-user this means quality assured installation of Weber Marine Floors that is performed according to the Weber installation instructions.

Weber Marine Floors shall always be supplied in the exact quality as agreed and in terms of function, strength, durability, surface, flexibility and so on. All stages in the Marine Flooring application are crucial for the final result. Therefore, we have introduced a quality assurance (QA) procedure to be followed by Weber and our Accredited Weber Marine Floor Contractors.

The control consists of:

- ▶ Quality Control of raw materials
- ▶ Production control - ISO 9001/14001
- ▶ Quality Control of finished product
- ▶ Product certificate
- ▶ AWMFC consignment control
- ▶ AWMFC Quality Control
- ▶ Quality Assurance of finished floor
